## Re: Summary of Benefits and Coverage (SBC)

Dear Participant and Family:

Enclosed you will find the NECA-IBEW Welfare Trust Fund's Summary of Benefits and Coverage (SBC). The SBC provides a general description of the health benefits provided by our Fund. SBCs are required by the Affordable Care Act (ACA). Please share the SBC with your family members who are eligible for Fund coverage.

The federal government created SBCs to help people who are shopping for coverage. They let you see if different plans cover the same benefits (office visits, hospitalizations and prescription medications, for example), and how much coverage they offer for those benefits (what the coinsurance and copayments are for different services). For that reason, we were not allowed to change much of the SBC to make it better fit with your benefits.

To best understand the benefits provided by this Fund, we recommend that you refer to the materials that the Fund has created for you—the Fund's website ([www.neca-ibew.org](http://www.neca-ibew.org)), your Summary Plan Description (SPD), the Fund's newsletter, and the other Fund documents that you are used to seeing from the Fund and our health care partners.

### SBC Examples

The SBC includes three examples—one for having a baby, one for managing type 2 diabetes and one for treating a simple fracture. The examples show the health care costs for you and the Fund that are involved with getting care for each of these three situations.

**As you read these examples, it's very important to keep in mind that the costs shown are national averages; they do not tell you what the actual services might cost where you live.** Also, your doctor might choose a different course of treatment than what is used to create the example costs. Or your doctor could be a Non-PPO Provider—the examples only show costs for PPO Providers. There are lots of ways that your costs would be different than what is shown in the example even though you might be dealing with the same thing—type 2 diabetes, for example.

**These examples are included in the SBC to help you compare how different health plans might cover the same condition—not for predicting your own actual health care expenses.**

### SBC Terms

The SBC might use different terms than you are used to seeing as it discusses your benefits. And there's something called a "Glossary of Health Coverage and Medical Terms" mentioned in the SBC. The Glossary gives definitions of common health insurance terms. Unfortunately, it's a national glossary and it may explain things differently than we usually do. But the government won't let us change any of the definitions or even add some to make the Glossary more helpful to you.

If you read the SBC or the Glossary and anything seems confusing or doesn't quite line up with the way our Plan works, we suggest that you go to the Fund's website, your SPD and the other benefit materials that you get from our Fund.
